

## ARMOR - WE LOVE TO PROTECT YOU.

Hit by Armor's arrow, we have developed a new, impenetrable armour for the surfaces of our all-glass balustrades and windows. It was produced in ONLEVEL's sacred halls and is especially well suited for buildings in coastal areas. In such places, where the sea never ends and the sky begins, the extremely saline air relentlessly attacks all metal and coated surfaces.

**Last digits .19 – this is your arrow for a protected surface.**

The increased formation of corrosion particularly occurs close to the sea and sometimes even several kilometres inland. However, also health resorts and swimming pools with a higher salt content in the air may experience this phenomenon. Even ships are not immune to corrosion damage, for example on container locks. Apart from the visual aspect, Armor also has a safety-related function, which has been brought to life with great attention to detail in ONLEVEL's innovation hotbed.

**ONLEVEL Armor – the armour for your surface.**
