

# INFINITYSLIDE 69

FOR GLASS AND WOODEN DOORS

ONLEVEL

## Runs and runs and runs...

We're kicking up our heels again and the walls start to crumble. Not because Forrest paid us a visit but because **INFINITYSLIDE** is that cool that even the surrounding dirt bows in deference. That is why we have put off everything else just to present this sliding door to you. **INFINITYSLIDE** can be mounted that simply and intuitively that you can have a cushy number and could easily watch the Forrest movie in the meantime.

### Easy

The bottom guide for glass can be unfolded in a way that the installation almost goes by itself.

### Practical

The bottom guide for wood can be adjusted in a way that the door practically takes its place by itself.

### Automatic

The height adjustment is pre-assembled that well that the glass automatically locks in place in the centre.

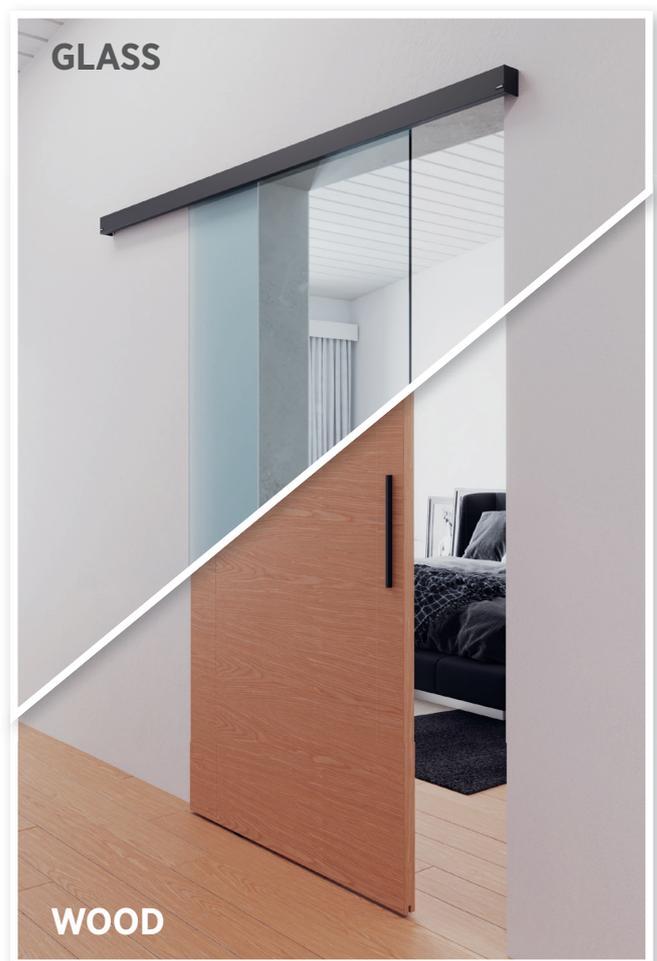

### Cleaning

This fitting more or less cleans itself because it has integrated brushes both in the front and in the rear.

### Dirt trap

The running track has an integrated collection channel for any dirt.

You shouldn't put off this recommendation nor should you put the blame on your colleagues: **INFINITYSLIDE** is a true world debut and we actually wouldn't even need to advertise it - it already promotes itself.

## Our Colour Selection

Aluminium

similar to stainless steel, polished

Stealth Black, polished

Powder-coated surface as per RAL (on request)

WE'RE ONLEVEL

**CONFIGURE IT OUT!**

**THE INFINITYSLIDE CONFIGURATOR FROM ONLEVEL.**

[WWW.ONLEVEL-SHOP.COM](http://WWW.ONLEVEL-SHOP.COM)

**THE SELF-CLEANING RUNNING TRACK.**

The brushes at the front and rear of our "self-cleaning trolley" keep everything clean.

**SOFT-CLOSE WITH ACTIVE STOPPER.**

Activator and stopper have been combined into one component, the "AktivStopper".

**CLAMPING JAW FOR GLASS**

Quick adjustment with just two clamping screws Rubber with strong grip and connection for the active stopper

**CLAMPING JAW FOR WOOD**

Sound-absorbing layer and connection for the active stopper, screws included.

**BOTTOM GUIDE FOR GLASS**

Can be opened for easier installation, for 8 to 10.76 mm glass, can be mounted on the floor or wall.

**BOTTOM GUIDE FOR WOOD**

Adjustable for 5 mm, 6 mm or 7 mm groove width. Very stable made of metal and very flat at only 1 mm
